DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claims 37-55 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. Regarding independent claims 37, 54, and 55, the claims contains the phrase "two dimensional array" which was not described in the specification or drawings in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 38-53 are rejected based upon the rejected base claims.
